

SCRUBS ONLINE

AN ONLINE HEALTHCARE CAREER
EXPLORATION PROGRAM

“Scrubs Online was directed and organized for everyone. The presenters did a good job at being thorough and self-explanatory with their live sessions.” - Scrubs Online student

“I like how flexible Scrubs Online was and how I was able to work at my own pace. I also like how it covers a variety of careers while also teaching about skills that we will need in the real world.” - Scrubs Online student

SUMMER 2020

BEST PRACTICES

Several successes came from the quick creation and rollout of the Scrubs Online program:

- K12 student focused curriculum to introduce five needed technical careers: Practical Nurse, Radiologic Technician, Histology Technician, Phlebotomy Technician, and Surgical Technician
- Educational activities to keep students occupied during the summer duration
- Provide live presentations on several careers to answer questions from students. now expanding into a video library of career videos to be used by many stakeholders

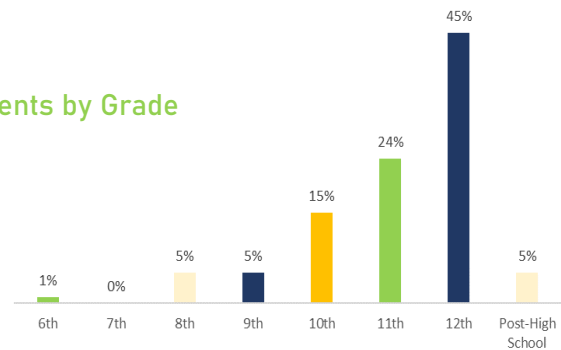

LOOKING AHEAD TO 2021

Scrubs Online will continue to be utilized as a supplemental program to the Scrubs Camp program. In the case that Scrubs Camps can run in 2021, Scrubs Online will give students a taste of what can be experienced at Scrubs Camp in the summer. The next online cohort will be hosted in Spring of 2021.

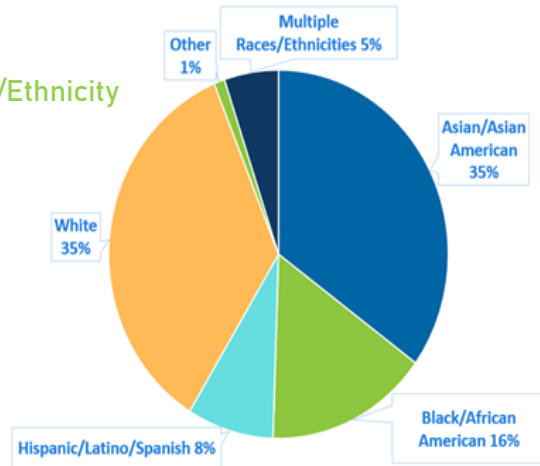

STUDENT DEMOGRAPHICS

Overall, the 1st Scrubs Online cohort had 325 participants. Of that cohort, 112 students completed the required content to receive a badge from Winona State University for accomplishing introductory healthcare career research.

Students by Grade

Race/Ethnicity

Additional Student Statistics

- 19% will be First Generation College students
- 46% qualify for Free/Reduced Lunch
- 95% are thinking more seriously about going to college
- 23% are planning to attend a 2-year college
- 92% are planning to attend a 4-year college
- 11% are current HOSA members

STUDENT LEARNING OUTCOMES

The material presented in Scrubs Online led to a final project where students were required to: find a “dream career” in healthcare; find a college/university program along with program requirements; and research salaries and job duties to find if the researched career was a best fit for the student.

- 94% of students could name 10 or more healthcare careers after completing Scrubs Online
- 98% plan to pursue a career in health/science
- 112 students completed the program work and will receive the first Scrubs micro-credential for healthcare career research

"They say 'When life gives you lemons, make lemonade'. We made a lot of Scrubs Camp lemonade this summer! The shift to Scrubs Online allowed us to continue inspiring students about a future in health care. The content was created and will be re-used for other outreach efforts to reach even more students—and maybe even adults. So while it wasn't the summer we expected, it was a big success!" - Valerie DeFor, Executive Director, Minnesota State HealthForce Center of Excellence

"The idea behind Scrubs Online was to give students career exposure to health care professions in the face of an everchanging environment. The success of the program was unknown at the time we started to enroll students, but by the end we could see we had a new tool in the Scrubs toolbox that we could continue to use in the future to reach more students while also taking time to collaborate with new presenters who may not have had the ability to be with at us at our traditional summer camps. This new program has great potential to be used throughout the year to supplement Scrubs Camps and gain a larger audience: from 6th grade to possibly even adult learners. There's great potential for the future of the Scrubs programs, and it's exciting to know that the magic of Scrubs Camp can now be right at the students fingertips!" - Brady Malecha, K16 Program Coordinator, Minnesota State HealthForce Center of Excellence

We would not have seen the great amount of successes without the generous efforts of our partners who volunteered and given videos, content, time, knowledge, and expertise.

THANK YOU!

Bill Neiss - Opportunities in Emergency Care, Spring Lake Park High School
Coalition of Occupational Therapy Advocates for Diversity - St. Catherine's University

Dean Thach - Recruiter, Monarch Health

Jenn Ellis - Aging Services Professional Program Director, Wisconsin Indianhead Technical College

Jessica Weber - Recruiter, Monarch Health

Kayla Tryggstad - Clinical Pharmacist, M Health Fairview

Keegan Ilenda - Clinical Pharmacist, M Health Fairview

Leah Zupanich - Pediatric Cardiovascular Surgery Physician Assistant, Children's Hospital

Laura Attenberger - Health Unit Coordinator Instructor / Director of Secondary Relations, South Central College

Mayo Clinic - Career Awareness Department

Pat Reinhart - Registered Nurse and Nursing Careers Specialist
